DETAILED ACTION

Status of Claims

1. Claims 2, 7-14, 20, 24-36 and 39-59 are pending in this application.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 2, 7-14, 20, 24-36 and 39-53 and 56-59 are rejected under 35 U.S.C. 101 the claimed invention is directed to non-statutory subject matter.

Regarding Claims 39, 41, 47 and 56, the claims are directed to an apparatus to display an electronic program guide with a defined window area to cover part of the program guide. This in essence is merely an invention limited to a display concept. The Diehr Court (Diehr 450 US at 193.n.14) affirmed, a machine-or-transformation test involving "insignificant activity will not transform an unpatentable principle into a patentable process." In other words, the limitation directed to an apparatus does not transfer the limitation of a display into one of the acceptable patentable subject matters. Hence the subject claims are not patentable. Furthermore, the Examiner wishes to inform the Applicant, that any considered amendments intended to overcome the rejection must not avert to a limitation or a post solution activity.

Claims 2, 7-14, 20, 24-36, 40, 42-46, 48-53, 57-59 are dependent from Claims 39, 41, 47 and 56 are also rejected.

Allowable Subject Matter

3. Claims 54 and 55 are allowed.

Conclusion

4. Claims 2, 7-14, 20, 24-36 and 39-53 and 56-59 are rejected.
Claims 54 and 55 are allowed.
